**Tournament of Minds** is a creative team-based problem solving challenge for primary and secondary students. It is an ideal vehicle for school based extension programs and involves teams of 7 students from years 1 to 10.

◆ These workshops are designed for facilitators who wish to challenge and further the thinking of their students, both in the classroom and within their TOM teams.

- Why TOM is a valuable experience and what it offers students
- What is problem-solving, and how to walk the students through a problem solving process
- Drama Skills
- Unpacking the Challenge
- The Spontaneous Challenge – ability to focus; generating ideas; organisation and evaluation
- TOM Forms
